President's Message

Everyone that is making the trek to Dallas, Texas, have an informative, fun and safe trip! Hopefully the weather in Dallas will be much better than what we have been experiencing since the second week of December. The early snow fall and extremely cold temperatures, probably had and has some of us scrambling somewhat. It certainly was the first time I had problems with the spray rig freezing-up while spraying for snow mold! Dormant feeding this year could possibly be the snow fall, who knows!

The Winter Educational Meeting was moved to an earlier date this year, February 27, please plan to attend. It will be very interesting and informative. We should have samples of apparel with an updated logo of our association for everyone to see at this meeting.

2001 Surveys will be sent out very soon, those who receive this mailing please respond quickly and as accurately as you can!
